CAREER OBJECTIVE

As a passionate and dedicated beginner software developer, my objective is to leverage my programming skills and problem-solving abilities to contribute to innovative and challenging projects. Eager to learn and grow in a dynamic software development environment, applying my creativity & technical abilities for the benefit of the company.

SKILLS

PROFESSIONAL

HTML :
- Implemented semantic and non-semantic tags for structured web pages.
- Utilized local and global attributes to customize web content.
- Created lists and tables for organized data display.
- Integrated media and hyperlinks for interactive experiences.
- Developed dynamic forms for user input collection.

CSS:
- Used various CSS types, selectors, combinators, and pseudo-selectors for styling.
- Applied the box model for layout and spacing.
- Managed position and display properties for layout control.
- Acquired basic knowledge of CSS animations for user interactions.
- Created Static webpages like Shadi.com, Knitebite.com, YouTube.com, Frozen Yogurt Web site using HTML and CSS.

JAVASCRIPT :
- Good Knowledge on keywords, Data types, Operators (+, spread, rest, type of Operators).
- Proficient in Functions, Objects, Array and Strings.
- Solid Understanding of BOM concepts (Pop-ups, Timing Function, Events).
- Excellent in DOM manipulation and Validation concepts.
- Good in promise, async and await concepts.

Completed few projects such as Basic Calculator, Digital Clock, OTP Generator, Login & Validation Page and Fetching API using HTML, CSS and JavaScript.
